👤 PROFILE

MERN Stack Developer Self-motivated and passionate MERN Stack Developer with hands-on experience in building dynamic and scalable web applications. Proficient in MongoDB, Express.js, React, and Node.js, with a strong foundation in full-stack development. Adept at problem-solving, writing clean and efficient code, and quickly adapting to new technologies. Committed to continuous learning and delivering high-quality solutions. Seeking opportunities to contribute to a dynamic team.

📁 PROJECTS

Torro Furniture (E-Commerce) 03/2024

JavaScript, Node js, Express, MongoDB(Atlas cloud), Razorpay, AWS ,Nginx

- **Developed** a full-stack e-commerce platform with Node.js, Express, MongoDB, and Mongoose, deployed on AWS with Nginx for scalability.
- **Designed** user-friendly admin and customer interfaces with product management, order tracking, and sales analytics.
- **Integrated** Razorpay for secure payments, including order management, refunds, user wallets, and referral rewards.
- **Optimized** performance using MongoDB Atlas, advanced querying, and indexing for high availability.

DX Ball Game 🎮 01/2024

A copy of dx ball game made by basic javascript

- **Developed** a DX Ball game using HTML, CSS, and JavaScript.
- **Implemented** paddle movement, ball physics, and brick collision detection.
- **Designed** a responsive canvas layout for smooth gameplay across devices.
- **Added** scoring and life-tracking for an engaging experience.

MINI PROJECTS 11/2023

- Netflix clone
- personal website
- mail validation

📁 PROFESSIONAL EXPERIENCE

Self-Employed 09/2023 – present

Ernakulam

- Collaborated with professionals having at least 3 years of industry experience.
- Received code reviews, suggestions, and additional tasks for ongoing projects.
- Implemented features based on feedback and improved project quality.
- Managed multiple projects simultaneously, ensuring timely delivery and client satisfaction.

TECHNICAL SKILLS

o) Frontend

HTML, CSS, JavaScript,
React, Redux

o) Backend

Node.js, Express.js

o) Database

MongoDB, Mongoose

o) Tools and Platforms

Git

o) Architecture

MVC, Repository Pattern

EDUCATION

Bachelor of Business Administration
University Of Calicut

06/2020 – 03/2023 | Kozhikode, Kerala

TRAINING / EDUCATION

MERN Stack Bootcamp

Current | Ernakulam, Kerala

Participant

- Engaging in a comprehensive training program focusing on technical skills (Node.js, Express, React, MongoDB) and communication strategies within the tech industry.
- Learning and applying best practices in full-stack web development, including database management, server-side scripting, and client-side user interfaces.
- Collaborating with peers on projects to enhance proficiency in agile development methodologies and teamwork dynamics.
